AI, ANALYTICS
AND THE HR REVOLUTION
EXECUTIVE
ROUND TABLE
SERIES

27TH NOVEMBER
LONDON
The discussion will cover the following areas:

- How can AI improve talent acquisition, candidate screening (eliminate unconscious bias) & onboarding?
- Performance analysis & behavioural assessment
- Improving the candidate & employee experience using AI, employee engagement & reducing attrition
- Ever increasing data pools – how can people analytics support more informed strategic decision making?
- Using chatbots and AI in employee benefits service centres and in outbound communication
- AI in Learning – accurately allocating the right course to keep up engagement & continual learning
- AI in team-making, especially with flex and gig workers, to assemble the most effective teams

The purpose of the session is to discuss trends, strategy, share experience and explore solutions in a private, collaborative, peer to peer environment.
